Companion Volumes	Constitution (AMIU-CON-001); Strategic Implementation Blueprint 2028–2050 (AMIU-SB-002)

This Compendium is the definitive policy and procedural framework of Al-Mulk International University. It operationalizes the governance architecture the Constitution establishes; where any provision of this Compendium conflicts with the Constitution, the Constitution governs.

Typesetting and Publication Design: this Compendium is set in the same three-role editorial system as the University's Constitution and Strategic Implementation Blueprint — Fraunces display, Source Serif 4 reading, Archivo structural — so that every AMIU governing and planning publication reads as one institutional family, produced under one publication standard.

Governance Declaration

Presented for endorsement by the University Senate

This Institutional Governance Compendium constitutes the definitive governance and policy framework of Al-Mulk International University. It establishes the institutional structure, articulates the core values, defines the roles and responsibilities of all governing bodies, and provides a comprehensive inventory of the 107 policies, procedures, and governance instruments required for the operation of the University.

Where the Constitution (AMIU-CON-001) sets the University's supreme legal architecture, this Compendium sets the operational detail beneath it: who is responsible for each policy, who approves it, and on what schedule it is to be developed. Twenty-five Sections, organized across institutional identity, governance hierarchy, phased growth, compensation philosophy, and the complete document registry, make up its full architecture.

Certified for Executive Release — Founding-Decade Edition

Preamble

In the Name of Allah, the Most Gracious, the Most Merciful.

Al-Mulk International University (AMIU) is established as a Texas-registered, religiously-exempt institution of higher Islamic learning. Its founding purpose is the dissemination of authentic Islamic knowledge across the globe at the minimum possible cost, ensuring that no sincere seeker of knowledge is turned away due to financial constraint.

The University operates primarily as an online and distance learning institution, serving students across all time zones and continents. This mode of delivery is integral to the University's mission of spreading Islamic education worldwide without barriers.

This Compendium serves as the authoritative reference for all institutional governance and policy matters. It articulates the University's mission, vision, and core values; establishes the institutional governance structure; defines the roles and responsibilities of all governing bodies; lists all 107 institutional policies, procedures, and governance instruments; assigns clear accountability for each document; provides a phased growth framework for offices and committees; sets forth the compensation philosophy and framework; and establishes governance provisions for online and distance learning.

1.1 Preamble

In the Name of Allah, the Most Gracious, the Most Merciful.

Al-Mulk International University (AMIU) is established as a Texas-registered, religiously-exempt institution of higher Islamic learning. Its founding purpose is the dissemination of authentic Islamic knowledge across the globe at the minimum possible cost, ensuring that no sincere seeker of knowledge is turned away due to financial constraint.

The University operates primarily as an online and distance learning institution, serving students across all time zones and continents. This mode of delivery is integral to the University's mission of spreading Islamic education worldwide without barriers.

This Institutional Governance Compendium constitutes the definitive governance and policy framework for the University. It establishes the institutional structure, articulates the core values, defines the roles and responsibilities of all governing bodies, and provides a comprehensive inventory of all policies, procedures, and governance instruments required for the operation of the University.

- 1.2.3** Defines the roles and responsibilities of all governing bodies;
- 1.2.4** Lists all 107 institutional policies, procedures, and governance instruments;
- 1.2.5** Assigns clear accountability for each document;

SECTION 1 · 1.3

SECTION 1 · 1.4

1.4 Governance Principles

This Compendium is founded upon the following governance principles:

Principle	Application
Phased Growth	Institutional structure expands strategically as enrollment and faculty grow.
Separation of Powers	No single individual serves as both Policy Steward and sole Approval Authority.
Accountability	Every document has a clearly designated steward.
Transparency	All documents are publicly available, except where legally restricted.
Mission-Driven Service	All contributions are framed as service to the Ummah.

Principle	Application
Revenue-Linked Sustainability	Compensation and operations scale with institutional revenue.
Online-First Delivery	All governance and operations assume a primarily online delivery model.
Global Accessibility	All policies accommodate students across time zones and regions.
Knowledge Without Barriers	The University is committed to removing all barriers to Islamic education.

SECTION 1 · 1.5

1.5 Document Numbering System

Each document is assigned a unique identifier following this convention:

Element	Format	Example
Prefix	AMIU	AMIU
Category Code	GOV, ACA, STU, OPS, LEG, MKT, WAQ	AMIU-GOV
Sequential Number	001-999, counted within its own category	AMIU-GOV-001
Version	V-1.0	AMIU-GOV-001-V1.0

Category Codes

Code	Category	Description
GOV	Governance	Board, Senate, and institutional governance documents

Code	Category	Description
ACA	Academic	Program, curriculum, faculty, and academic policy documents
STU	Student	Student conduct, services, and support documents
OPS	Operations	Finance, HR, IT, facilities, and operational documents
LEG	Legal & Compliance	Legal, regulatory, and compliance documents
MKT	Marketing	Brand, communications, and marketing documents
WAQ	Waqf & Research	Endowment, fundraising, research, and risk documents

Note: the Sequential Number in a document's code (e.g. the "003" in AMIU-GOV-003) counts only within that document's own category — it is not the same as the flat 1-107 numbering used for reference in Sections 17 and 20. Section 17's "Doc Code" column gives both side by side for every document, so the two schemes are never in doubt.

SECTION 3 · 3.2

3.2 The ISLAMIC Framework

Letter	Word	Meaning
I	Illumination	The pursuit of knowledge is an act of worship that illuminates the heart and draws the seeker closer to Allah.
S	Sanad	The University is bound to the Prophetic tradition by an unbroken golden chain of transmission, ensuring authentic and trustworthy scholarship.

M	Morality	The University cultivates noble character — honesty, humility, patience, generosity, and compassion — following the Prophetic example.
I	Inquiry	The University encourages intellectual rigor, critical inquiry, and the pursuit of truth through ijtihād and taḥqīq.
C	Calling	The University is committed to da'wah — calling to Allah with wisdom, beauty, and mercy.

SECTION 3 · 3.3

3.3 The ISLAMIC Framework — Detailed

I — Illumination. The pursuit of knowledge is an act of worship that illuminates the heart and draws the seeker closer to Allah. At AMIU, education is not merely the acquisition of information; it is the cultivation of faith, the refinement of the soul, and the awakening of the intellect to the signs of Allah. All academic pursuits are grounded in the Qur'an and Sunnah, and all scholarship is directed toward the service of Allah and the betterment of humanity.

S — Sanad. AMIU is bound to the Prophetic tradition by an unbroken golden chain of transmission (sanad). Every faculty appointment is traceable to a documented chain of study, training, and authorization. This sacred chain ensures that the knowledge imparted is authentic, trustworthy, and rooted in the tradition.

L — Love. The University exists to serve the Ummah with love and dedication. Its primary purpose is the dissemination of Islamic knowledge to every corner of the world, with particular attention to those who are marginalized, impoverished, or otherwise deprived of access to authentic Islamic education.

A — Access. Guided by the Qur’anic principles of compassion (rahmah) and justice (‘adl), AMIU ensures that financial capacity shall never be a barrier to knowledge. The University opens its doors to all, regardless of economic status, nationality, or circumstance.

M — Morality. AMIU cultivates not only knowledgeable scholars but also virtuous human beings. The University is committed to the purification of character (tazkiyah) and the inculcation of noble virtues (akhlāq) — honesty, humility, patience, generosity, and compassion.

I — Inquiry. AMIU encourages intellectual rigor, critical inquiry, and the pursuit of truth. The University cultivates scholars who are both deeply rooted in the Islamic tradition and equipped to engage with contemporary challenges through ijtihād (independent reasoning) and taḥqīq (critical investigation).

C — Calling. AMIU is committed to the noble mission of da’wah — calling to Allah with wisdom, beauty, and mercy. Through its graduates, publications, and outreach programs, the University spreads the message of Islam with compassion, excellence, and profound respect for all humanity.

SECTION 3 · 3.4

3.4 The ISLAMIC Pledge

“As members of Al-Mulk International University, we commit ourselves to:

Illumination — that our knowledge may be light; Sanad — that our scholarship may be authentic; Love — that our service may be devoted; Access — that no soul may be denied; Morality — that our character may reflect the Prophet, peace be upon him; Inquiry — that our thought may be rigorous; Calling — that our da’wah may be with wisdom.

These are our values. This is our promise to the Ummah.”

Governance Hierarchy & Roles

SUBSECTIONS 4.1–4.4

“The Senate teaches and the Administration executes — parallel authorities, not a chain of command.”

SUBSECTIONS

- 4.1 The Governance Hierarchy
- 4.2 The Board-Senate Relationship
- 4.3 Senate Authority — Defined
- 4.4 Governance Structure — Exhibit G1

SECTION 4 · 4.1

4.1 The Governance Hierarchy

The University operates under a clear governance hierarchy, reflecting the standard bi-cameral model of higher education. The Board and Senate are supreme in their own domains rather than ranked one above the other — Exhibit G1 and Section 4.2 govern how the two chambers relate in full.

Tier	Body	Role
1	Board of Trustees	Supreme Governing Authority — responsible for the long-term strategy, financial health, and legal integrity of the University.
2	President & Vice-Chancellor	Chief Executive Officer — the single operational link between the Board and the Senate.
3	University Senate	Supreme Academic Authority — responsible for curriculum, standards, examinations, and degrees.
3	Administration	Executive Management — the administrative arm that implements policies under the leadership of the President.

Note: the Senate and the Administration are placed at the same Tier 3 deliberately. Both report through the President as Tier 2, but neither is subordinate to the other — Section 4.2's non-interference principle and Exhibit G1's diagram both establish them as parallel, co-equal bodies, not a fourth link in a single chain.

SECTION 4 · 4.2

4.2 The Board-Senate Relationship

The Board and Senate maintain a relationship of mutual respect and separation of powers:

Principle	Application
Strategic vs. Academic	The Board governs; the Senate teaches.
Non-Interference	The Board shall not interfere in curriculum or grading. The Senate shall not interfere in budget allocation or external strategy.
Advisory Role	The Senate advises the Board on academic matters. The Board consults the Senate on financial matters affecting academic quality.
The President as Link	The President ensures the Board's vision and the Senate's standards are executed efficiently.

SECTION 4 · 4.3

4.3 Senate Authority — Defined

Area	Authority
Academic Programs	Full authority to approve, modify, or discontinue academic programs.
Academic Standards	Full authority to set and enforce academic standards.

Area	Authority
Faculty Appointments	Full authority to approve faculty appointments through the Faculty Affairs Committee.
Faculty Promotions	Full authority to approve faculty promotions through the Faculty Affairs Committee.
Degree Conferrals	Full authority to ratify all degrees and certificates.
Academic Budget	Advisory authority – recommends allocation to the Board through the President.
Tuition Setting	No authority – this is the Board’s exclusive responsibility.
Staff Hiring	No authority – this is the Administration’s responsibility.
Non-Academic Budget	No authority – this is the Board’s and Administration’s responsibility.

SECTION 4 · 4.4

4.4 Governance Structure — Exhibit G1

The University’s governance structure is presented in full in **Exhibit G1** (Governance Architecture, preceding the Table of Contents): the Board of Trustees at the apex, the President & Vice-Chancellor as the single operational link beneath it, and the University Senate and Administration as parallel, co-equal bodies beneath the President — each supreme within its own domain, neither subordinate to the other.

Publication Certification Statement

Before typesetting, this Compendium underwent a structured editorial and data-integrity review by the AMIU Office of Institutional Planning — the same standard of scrutiny applied to the University’s Constitution (AMIU-CON-001) and Strategic Implementation Blueprint (AMIU-SB-002), extended here to include a full row-by-row reconciliation of the 107-document registry against every summary and roadmap table built on top of it.

Issues found and corrected:

- **A genuine summary-arithmetic error.** Section 19.2’s “Summary by Priority” stated Critical 62 (58%), Important 38 (35%), Complete 7 (7%). A manual tally of all 107 rows in Section 17 — cross-checked against the seven category subtotals in Section 18.1–18.7, all of which reconciled correctly to 107 — found the true counts to be Critical 49 (45.8%), Important 53 (49.5%), Complete 5 (4.7%). The stated summary did not match the registry it was summarizing; it has been recomputed directly from Section 17 and is now generated from the same source data, so the two can never again drift apart.
- **A matching roadmap error, plus a double-booking and a missing document.** Section 22.1’s phase counts (Phase 2 “53,” Phase 3 “38”) had the Critical/Important totals transposed relative to Section 19.2’s own (also incorrect) summary. Separately, documents 70–72 (Backup & Disaster Recovery, IT Support, Acceptable Use) were listed in *both* Phase 3 and Phase 4, while document 68 (LMS Technical Specifications) was not scheduled into any phase at all. The roadmap is now generated as Phase 1 (9, unchanged) plus Phase 2 (40 — every Critical document not in Phase 1) plus Phase 3 (46 — every Important document not in Phase 4) plus Phase 4 (7, unchanged), which sum to the 102 documents actually requiring development, with no document appearing twice or not at all.
- **A cross-reference numbering error.** Section 21.2’s dependency list coded the Certificate of Formation as “(LEG-002)” — a code already assigned elsewhere in the same list to the GDPR Compliance Policy. Per Section 17, the Certificate of Formation is a Governance document (item 4 of 11), so its correct category-relative code is GOV-004; corrected accordingly.

- **A missing cross-reference key.** Section 1.5 defines category-relative document codes (e.g. GOV-003), but Section 17’s master inventory previously showed only the flat 1-107 reference numbers used in Sections 17, 20, and 22, while Section 21 used category-relative codes for the same documents with no table connecting the two schemes. Section 17 now carries both side by side in a “Doc Code” column.
- **A governance-hierarchy presentation inconsistency,** directly analogous to one already corrected in the Constitution. Section 4.1’s numbered “Level 1–4” table placed the Senate above the Administration, which could be read as a strict chain of command — while Section 4.2’s text and the organizational chart both establish the Senate and Administration as parallel, co-equal bodies reporting through the President. Section 4.1’s table is now annotated to make the co-equal Tier 3 explicit, and the former ASCII-art chart in Section 4.4 is replaced by Exhibit G1, a diagram purpose-drawn to show the two chambers as parallel rather than sequential.

Reviewed and deliberately left unchanged, because it is not an error: the Growth Summary in Section 11.1 shows Year 3 enrollment (1,606) between the figures separately cited elsewhere for Year 1 (347) and Year 5 (3,493); all three figures were cross-checked against the Constitution and Strategic Implementation Blueprint’s own enrollment projections and agree exactly.

This statement certifies that the review described above was performed and that every issue it identified was corrected before publication. It does not certify — and no review of a registry this large can reasonably certify — the complete absence of any error whatsoever. A reader who identifies a further issue is asked to report it to info@edu.amiu.com for correction in the next revision.
